Moisture Meter

Art.-No. 45.016.20

This portable, high precision measuring instrument is ideally suitable for moisture tests of wood, finery, mortar, wall etc. The two spiky electrodes have to be pressed into the material which should be measured and the result of measurement is immediately represented on the LCD display. The inserted thermometer permits the measurement of the ambient temperature. As the battery no longer reach the necessary operating voltage a battery symbol in the display appears.
