

Oil Radiator MR 915 LB

Art.-No.: 23.383.60

Bar code: 4006825510850

Sales unit: 1 pc

In the oil radiator the heat accumulator medium “oil” is used, which heats up very fast. The heat is contained for a long time and after switching off electricity the heat will be transported in the room constantly. The oil-filled radiator is robust and handling it is easy. It is a mobile alternative to the central heating or interseasonal heating. The oil-filled radiator is suitable for warming up the air in closed rooms.

The heating fins of model MR 915 LB are fully covered by a plate, which makes it impossible also for children, to touch the hot fins during its operation. A removable water tank accumulates the room air with additional humidity during heating operation.

Features:

- Fully covered fins ensure increased safety (1)
