

The powerful shredder for a cultivated garden!

Einhell®
NEW GENERATION

Powerful electric garden shredder with blade cutting unit. The shredder also cuts larger-sized and harder types of trees and hedges, branches and bushes into optimal-sized compost.

The feeding funnel is protected by a rubber lamella to avoid material backlash. The pusher ensures speedy working and high material throughput.

The chopping blades are set in a slanted position help avoid congestion of the material, provided the shredder is fed correctly, for continuous material feed-in and easy ejection.

The sturdy, foldable collection bin guarantee a clean transport of the garden rubbish. The design with its convenient transportation handle has been completes the overall attractive impression.
