EXPERT TE-AC 400/100/10 D Air Compressor

Art.-No. 40.101.91

The 2 cylinders, the powerful 400 volt engine and the belt drive care for a high intake capacity. The 10 bar of the large 100 litre vessel allows a variety application spectrum and by using of highgrade components a very long runtime is secured. By quick couplings the vessel pressure or a lower regulated working pressure can be taken out. For the regulated working pressure 2 quick couplings are available. Due to large wheels and guide rollers the compressor is mobile.
