BT-PG 5500/2 D Power Generator

Art.-No. 41.525.00

This „power station“ supplies energy and provides security. Power will be available whenever it is needed. Power failures or insufficient current supply are no longer a problem; whether during camping, at building sites, in homes or cottages, on boats or in the garden. This equipment can be used nearly everywhere, and, with its maximum power supply of 5,500 watts, provides sufficient power for many applications. The large 25-litre metal tank ensures continuous operation for 10 hours at 2/3 load. The power generator is powered by a high-quality 4-stroke engine and is equipped with an overload switch. The automatic voltage regulation adjusts the motor power according to the decreased power and acquires the voltage to estimated standard again.

Features

- Automatic voltage regulation
- Powerful 4-stroke drive motor
- Large 25-litre tank for continuous power with fuel gauge
- Changeover switch 230 V / 400 V
- Overload switch for equipment reliability
- Oil deficiency safety device to protect the motor
- Starter rope
- High grade wheels and folding handle for easy transport
- Stable base foot
- Full crank shaft

Technical Data
