Automatic Water Works

Item No.: 4176654

Ident No.: 11035

Bar Code: 4006825587258

The GE-AW 5537 E automatic domestic water system is an efficient and reliable helper which enables clear water to be delivered on demand from reservoirs, wells and shafts for use in irrigation systems or as service water. The electronic flow switch turns the pump on and off automatically when water is required. With its 590 W motor, the automatic domestic water system achieves a delivery rate of up to 3,750 liters of water per hour. Thanks to ECO Power technology, it is very powerful and energy-efficient at the same time.

Features

- Electronic flow switch with additional dry operation protection
- Large water refill opening
- Prefilter with integrated non-return valve
- Water drain screw
- Carry-handle
- ECO Power: higher delivery rate, lower power consumption
