The Einhell generator TC-PG 3500 W has a powerful, robust and clean 4-stroke drive motor to deliver a continuous output of 2,600 W and even 3,100 W for short periods. The generator is equipped with two 230 V socket outlets for easy connection. For easy and energy-saving transport it has large wheels and a hinged handle. The generator has a large 15-liter petrol tank with level indicator for continuous operation. The practical voltmeter shows the current voltage. For long-lasting operation the generator is protected reliably by an overload switch and a low oil cut-out. The AVR function ensures stable output power. The generator is started by an easy to use actuator cable.
