The Einhell 2-in-1 canister (1.25 l oil tank, 3 l petrol tank) is a practical addition to a set of chainsaw accessories. When using a chainsaw for performing work on wood, it takes just a single hand maneuver to top up the service liquids. In addition to the two combined canisters there is also an integrated practical tool bag. The screw caps have child-proof closures to prevent any danger for children. The filler opening ensures that the motorized equipment can be filled safely, so that there is no risk to the environment involved when doing this job. The container has been designed in high-grade, impact-proof plastic and is rugged enough to cope even with demanding assignments.
