The Einhell TC-MS 216 crosscut and miter saw is ideally equipped for jobs of workmanship involving wood. The integrated cutting line laser is a great help when working. The high-grade carbide saw blade cuts through the workpieces and delivers a perfect cut. The work table is made of light and sturdy die-cast aluminium and there are easy-to-read angle scales to make easy work of angular cuts and miter cuts. For the most common angles, locking positions are provided on the turntable. The saw head can be tilted up to 45° to the left for perfect miter cuts. The saw blade can be changed quickly thanks to the spindle lock. Supports are provided for long workpieces on the left and right, along with a clamping device for securing the workpieces.
