The Einhell TC-AC 200/24/8 OF compressor is powered by an oil-free and service-free motor with low maintenance requirements. The 24 liter tank has sufficient air reserves. The operating pressure of maximum 8 bar can be regulated by a pressure reducer. For controlled working pressure there is a pressure gauge and a quick-release coupling. For safety for all applications there is a non-return and safety valve, and there is also a drain plug for user-friendly maintenance. A secure standing position is ensured by the vibration-damped foot, and for easy transportation there are large wheels and a holding bar. Einhell is convinced of the quality and offers a 10-year rust-through warranty for the tank.
