The Einhell GC-GP 1250 N garden pump with a stainless steel look has a powerful 1,200 W rating for delivering up to 5,000 l of clean water per hour. The practical handle on the garden pump makes it easy to transport to the cistern, rain barrel or well. There is an On/Off switch for activating the garden pump. The pump has a water filler opening and a practical water filling indicator. Residual water can be completely emptied out through the water drain screw, so that the pump is protected from frost when stowed away. The thermo protection preserves the pump against overload damage during use. The garden pump also has high-quality mechanical sealings.
