The Einhell generator (petrol) TE-IG 3500 can supply power at any location. At the heart of the generator is a powerful, rugged and low-emission 4-stroke drive motor. This enables a continuous output of 3,200 W and a peak output of 3300 W at 230V. Power without voltage peaks is assured by inverter technology. Two 230 V/50 Hz socket-outlets, two USB socket-outlets and one 12 V socket-outlet are available for connections. Getting started is straightforward and effortless with the E-Start function. Operation is quiet thanks to the enclosed design. Safety features include an overload cut-out and a low-oil cut-out. Easy and flexible transport results from the trolley design. This generator runs on petrol.
