The suction hose extension is a practical vacuum cleaner accessory that allows Einhell wet/dry vacuum cleaners to be used even more flexibly. The suction hose can be used with all corded and cordless wet/dry vacuum cleaners from Einhell. The extension of the suction hose is perfectly suited for tasks where a larger radius of action is required; for example, when using the vacuum cleaner on a stepladder to reach ceilings and high corners. The robust suction hose extension is 3 metres long and has a diameter of 36 mm. It can be easily mounted between the suction pipe and the hose of the wet/dry vacuum cleaner.
